Cytec Eco-friendly solutions for Wood Flooring and Industrial Wood [top](#)

DAOTAN® TW 6440 and DAOTAN® TW 6493 have especially been developed to meet the high-demanding performance and environmental requirements of the wood industry. These two new polyurethane dispersion resins are particularly well suited for wood flooring, furniture and kitchen cabinets. Both **low VOC resins** benefit from a **high level of resistance to abrasion and chemicals**. In addition they provide **flexibility in formulation and application** as well as a **choice in aspect finishes**.

Additional key features

DAOTAN® TW 6440

- Particularly fast cure and quick hardness development which allows time savings and early handling of the coated product
- Very high hardness of the coating
- Excellent sandability
- It's amber color gives a finish close to solvent-borne systems

[Technical Datasheet Download](#)

DAOTAN® TW 6493

- Rapid cure and excellent surface hardness
- Solvent free
- Suitable for 1k and 2k systems
- Excellent compatibility with acrylic resins
- Its outstanding clarity preserves the natural aspect of the wood

To find out more about both products, please contact your account representative or [email us](mailto:email.us).

Cytec's Liquid Coating Resins to Showcase Products at the Middle East coatings show and Interlakokraska [top](#)

At both of these major events, Cytec's Liquid Coating Resins and Additives product line will present an extensive range of products for the automotive, architectural, industrial, concrete and wood markets.

We invite you to meet our sales and technical staff in order to talk with us about your product requirements, to get product literature, and to request samples.

Interlakokraska

Moscow Central Exhibition Complex, Russia
10 – 13th March 2009
Stand L498

Middle East Coatings Show (MECS)

Cairo International Conference and Exhibition Centre, Egypt
17 – 19th March 2009
Stand B3, Hall 4

If you are unable to visit us at these shows, please visit our [website](#) or contact our product referral team at custinfo@cytec.com.

Together for Sustainable Change [top](#)

Cytec helps the coating industry to improve its environmental footprint by developing new technologies with distinct ecological advantages.

Our new developments in waterbased systems, low VOC, HAPs-free and renewable raw materials, are only some of the possibilities we offer you to make a difference towards a **Sustainable Change**.

In order that we may keep up with the requirements in this field, please share your needs and thoughts about Sustainability with us by replying to our brief [online survey](#).

We appreciate your feedback and look forward to working together with you for Sustainable Change.
